

MEET BOSUN, YOUR OFFICE TEAMMATE

Get your evenings back.

Bosun by Chart Room AI. It works like a teammate with its own computer, handling the office work around your email, calendar, and bills, so you can stay focused on the job. **You just tell it what you need in plain English.**

A DAY WITH BOSUN • EXAMPLE: A LAWN CARE OWNER

MORNING

6:30 AM

Your morning brief: today's jobs, appointments, and anything urgent in email.

MIDDAY

12:00 PM

Replies to new quote requests are drafted. You read them, tap approve, and they go out.

AFTERNOON

3:30 PM

A list of unpaid invoices is ready, so you know exactly who to follow up with.

EVENING

7:00 PM

Done. No paperwork at the kitchen table tonight.

WHAT IT CAN DO FOR YOU

Email, handled

Keeps your inbox tidy: files mail into folders, flags what needs you, and drafts replies. You approve before anything is sent.

Calendar, straight

Helps keep your schedule in order, finds open times, and sets reminders.

Bills, tracked

Pulls invoices, receipts, and bills from your email into one running list.

Routines on autopilot

Runs tasks on a schedule, like a morning summary or a weekly unpaid-invoice list.

Research, fast

Looks things up on the web: a supplier, a price, a permit question.

Docs on request

Creates quotes, spreadsheets, and summaries. Just ask from your phone or computer.

HOW IT WORKS WITH CHART ROOM

1

Set up

We set up Bosun and get it ready for your business.

2

Train

About 2 hours of hands-on training. No special tech skills needed.

3

Support

Ongoing monthly support during business hours.

You stay in charge.

- You approve anything that goes out. It never sends email on its own.
- If it is ever down, you just do it the normal way. Nothing breaks.
- No special tech skills needed. Chat with it from your phone or computer.

Bosun by Chart Room AI is a service of Chart Room AI LLC. Bosun runs on an AI assistant set up on your own account. You pay for that account and its upgrade directly, along with your email service.

Ready for a teammate who handles the office?

Let's talk about setting up Bosun for your business.
